wedding photography

Swell Photography offers wedding photography for a variety of wedding styles. From elopements to formal affairs, we'll work hard to capture your memories so you can relax and enjoy your big day.

Our packages may be customized and are a starting point for planning. Each wedding is photographed by Kauai photographer, Kristin Hoshino. An assistant will join her on location. Packages will include high-resolution files of images with complete printing rights. All images will be edited for exposure, color and composition. You'll be able to view, download, share and order prints and canvas wraps from a password protected online photo gallery. Professional quality printing is offered through a leading national lab on the mainland and shipped directly to you.

about kristin hoshino

Aloha, my name is Kristin Hoshino, and I am a Kauai Photographer who specializes in weddings, family portraits, events and architecture. I am passionate about partnering with you to create images that genuinely reflect who you are and how you want to be seen. When you look at my work and see the smiling faces, I hope it makes you smile too. Those were truly happy moments that I was fortunate to share with some wonderful people.

BACKGROUND

I studied photography and majored in graphic design at Savannah College of Art & Design. After graduating college, I worked as a graphic designer and in-house photographer for architecture firms in Atlanta and New York City. There, I designed marketing materials and travelled the country to photograph people, events and architecture for my employers. My training as a graphic designer is evident in the striking composition and color balance displayed in my Kauai photography.

In December 2010, I traded my job on Park Avenue for a life where I could spend more time in real parks. My Boston terrier, Rascal, and I moved from Manhattan to Kauai, where I fell in love with the island... and a man who became my husband soon after. We married at Ke'e beach and just as they pronounced us "man and wife," a rainbow appeared on the horizon! We now have a daughter, Hana, and are settled into our beautiful life in Kauai. Today, I am lending my photography skill to local Kauai residents and visitors alike.

PROFESSIONAL EQUIPMENT

I use professional grade Nikon cameras and lenses as well as multiple flashes and other lighting modifiers. After the photos are taken, I "develop" them in Adobe Lightroom and do my retouching in Adobe Photoshop.
